

„Melodic Thrash'n'Death“ from the Upper Harz Mountains

It is considered a "term for extreme darkness, where you can see a very little to nothing at all" and as an expression of „the end - that there is nothing you can do to get away“.

The music comes accordingly dark, black and scary from the speakers, but ofcourse the guys from Zappenduster are not that dark, as you might expect now.

Since its founding in 2009, there have been ups and downs, then finally at the beginning of 2017 the first album was released. With "Rising ..." the guys presented an honest and unplayful Death-Metal-Longplayer. Variable vocals meet varied songwriting. Black-, Death- and Thrash-Metal influences can be heard as well as classic metal bonds and modern quotes.

"Zappendusters offer a solid, heavy-metal live show. With catchy melody lines and rousing grooves, we know the audience in to cast a spell on us." - Martin Lehmann

Currently, new songs for the second album are written and gigs are played.

"The evening started with "Zappenduster", the five-piece band with their classic death metal is rocking all over the stage and will be remembered by many guests due to their mix of songs." - Goslarsche Zeitung, 2017-11-02, page 18

We do not take a fixed fee, but a general contribution would be a major support for our projects and activities. The same applies for food and drinks before / during / after an appearance.
